20 NOVEMBER 2026

ALL DAY

GENERAL STRIKE

- For safe, decent and secure jobs
- For higher wages and pensions
- For a fairer and more progressive tax system
- To put a stop to inflation and the rising cost of living
- For a truly public healthcare system
- For the right to education
- For access to housing
- For Peace - no to rearmament

CGIL MODENA

THE FUTURE IS NOW!

OUR DEMANDS:

- **Higher wages and renewed collective bargaining agreements** in both the public and private sectors, to increase and restore the purchasing power of wages.
- **Decent pensions**, with full revaluation of pension payments and a freeze on any increase in the state pension age.
- **A fairer and more progressive tax system** that returns the fiscal drag to workers and pensioners, combats tax evasion and reduces inequalities.
- **More funding is needed for Italy's National Health Service, public schools, universities and social policies**, to guarantee accessible services and the right to healthcare, education and social care.
- **An employment and development plan**, supported by industrial policies capable of tackling economic crises, safeguarding jobs and supporting the transformation of production, especially in Southern Italy.
- **A future for younger generations**, by tackling job insecurity, guaranteeing the right to education and decent wages, and public policies that ensure access to housing.
- **Better health and safety at work**, through investment in prevention, inspections and worker protection.
- **A different allocation of public resources**, prioritising social needs, public services and quality of life over increased military spending.

The strike will cover the entire working day across all public and private sectors, including contracted-out services and ancillary activities, in accordance with Law No. 146/90, as subsequently amended. Essential services will be guaranteed, as required by current legislation.
